

Year 1 Term 1 Curriculum Map

Term 1.1 – Home Sweet Habitat

What your child will be learning this term

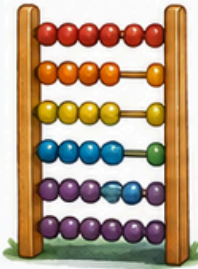

This term our learning is all about different places that are home to people, animals and plants. We will explore habitats around the world and learn how we can look after them.

Maths

We will build confidence with numbers to 20.

We will count, compare numbers and look at more and less.

We will learn simple addition and subtraction through fun games and activities.

English

We will enjoy stories about different homes and habitats.

We will practise our speaking and listening, learn new words and begin to write simple sentences.

Science

We will explore different materials and their properties.

We will observe changes such as melting, freezing, floating and sinking.

We will learn about the season of Autumn.

Topic: Our World

We will learn about human and animal habitats around the world.

We will explore maps, continents and oceans and compare places near and far.

We will think about how we can look after our planet.

Art & Design

We will create art about our own habitats and different places.

We will explore colours, materials and tools to express our ideas and share our creations.

PSHE

We will learn about feelings such as brave, shy, happy and loved.

We will talk about how to be kind, work together and look after ourselves and others.

ICT

We will use technology to create pictures and digital art.

We will learn how to use tools safely and make our ideas come to life.

Stories We Will Enjoy

We will enjoy a range of lovely stories about homes, animals and different places.

Stories help us learn new words, ideas and build our imagination!

Our big question:

How can we take care of the places and habitats we all call home?

Throughout the term, children will create artwork and a special habitat museum to share what they have learned and how we can protect our planet.
